Dear Prof. Dr. Manuel Rauchholz,

I fully endorse Rauchholz International Consulting's (RIC) initiative to Response Programs to the low literacy rate and substance abuse, particularly among school avoiders on Tol Island of the Chuuk State in the Federated States of Micronesia. Since 2011, RIC's efforts at promoting education in places and settings where this has been thwarted demonstrate how resilience and capacity-building skills are essential for empowering Chuukese communities beyond formal school and traditional church-based institutions. Thus, both local and international volunteers and staff members associated with RIC have persistently come alongside community incentives to foster educational development in areas facing shortages of teachers, experts, and resources for thriving in these rural island communities.

Together, we founded the Philadelphia Christian School in 2019, which grew out of a Kindergarten project. RIC connected us with the First Presbyterian Church of Guam, which became the main sponsor of the school. Furthermore, RIC facilitated a collaboration with the German Embassy in the Philippines, which equipped us with a water purification system and an ice machine. These are critical for maintaining the freshness of fish and agricultural products, enhancing the storage and distribution capabilities of our local fishermen and farmers.

Our children and youth deserve every chance to thrive in a positive, drug-free learning atmosphere. Many of them move to other places within the Federated States of Micronesia and the USA. We appreciate your leadership in bringing our educational vision to life in our communities. As we develop vocational, recreational, and environmental programs in connection with our elementary school, rest assured, you have our unwavering support.

Sincerely,
Raster Rasauo
Principal, Philadelphia Christian School

Dear Prof. Dr. Manuel Rauchholz,

I am writing to express my wholehearted support for Rauchholz International Consulting's (RIC) initiatives aimed at empowering the youth and children in our island community on Tol Island of the Chuuk State in the Federated States of Micronesia. Even before the founding of our local Philadelphia School in 2019, RIC has demonstrated a long-term commitment to improving educational access and community well-being, particularly through your work on Tol Island.

The establishment of our elementary school in collaboration with local community leaders and the local church exemplifies the power of community-driven solutions. I am particularly proud of your focus on guiding youth to lead meaningful, drug-free lives by investing in their education from a young age. Your dedication to the families in Chuukiyenú during the inaugural K-5 graduation on July 9, 2024, impressed Dr. Margerita Cholymay from the Chuuk State Department of Education and our esteemed Mrs. Keres Petrus, who leads the Faichuk Regional Office (FRO). Your ongoing efforts to implement the Rural Communities Opioid Response Program—Pathways are essential for the future of our communities.

Please be assured of our commitment to support this venture as you come alongside us in undertaking this educational opioid response program. Together, we can make a lasting impact on the health and educational opportunities for our children and youth in the FSM and beyond.

With warm regards,

CA Yos CA Yos.

Dear Prof. Dr. Manuel Rauchholz,

On behalf of the people of the Faichuk region, I am pleased to extend our full support for Rauchholz International Consulting's educational programs for children and youth in our rural communities. Since its establishment in 2011, Rauchholz International Consulting has partnered with our Chuukiyenu community leaders, parents, and local representatives from the Philadelphia Evangelical Church on Tol Island. You have enabled us to enhance formal and non-formal educational approaches to preventing substance abuse by offering pathways to a meaningful life. Through RIC's initiatives, we founded an elementary school in Chuukiyenú in 2019, now attended by 50 children in K5, 1st, and 2nd grades. RIC has not only recruited qualified educators to benefit the school, but also the community, such as with summer school and health outreach training programs conducted in collaboration with community leaders and government institutions such as the Chuuk State Public Health Department in July/August 2024.

I was particularly happy to help host the first K5 graduation at our elementary school on July 9, 2024, also attended by Dr. Margerita Cholymay from the Chuuk State Department of Education and our honorable Mrs. Keres Petrus, who heads the Faichuk Regional Office (FRO). The graduation ceremony highlights RIC's commitment to community collaboration. It brought together representatives from the government, local community leaders, the Evangelical Church of Chuuk, and the College of FCC on Tol Island. Our collaborative effort contributed to the Chuuk State Board of Education approving the PCS charter status in November 2024. This is aimed at securing support for our school facilities. The challenges of substance abuse and low literacy rates among our youth require a collaborative effort from all civil institutions. It is, therefore, commendable and essential to develop meaningful programs that will help build a healthier future for everyone.

We are committed to supporting your efforts and look forward to the positive outcomes that the Pathways program will yield within our Chuukese communities.

Sincerely,
Tarson Paulus 
Tolensom Representative, Legislative Branch

A Contract-Covenant

Pursuant to the resolutions and agreements (attached) made between our Evangelical Church of Chuuk, Inc. (ECC), Rauchholz International Consulting (RIC), Faithwalk Christian College (FCC), Philadelphia Evangelical Church (PEC), and the Chuukienu Community, Tolensom, regarding the founding of a new school, called Philadelphia Christian School – *Ren tongen newüch*.

WE, the representatives of all parties involved, after much prayer and deliberations, believing that this is God's will for us and our children, have covenanted together in the presence of God Almighty, with one accord-mind, heart, and soul, to establish and maintain Philadelphia Christian School for our children and other children as well.

Whereas, in this Contract-Covenant, we all agreed that Philadelphia Christian School (PCS) shall be established on the ECC land allotted to Philadelphia Evangelical Church for its ministry and custody, and

Whereas, we all agreed that RIC, a foreign partner, shall be responsible for PCS's management, financial support, in accordance with availability of funds, and staff recruitment, and

Whereas, we all agreed that as local founding fathers, PCS shall be first and foremost for our children of Chuukienu village, but it shall be open to other children as well, and

Whereas, we all agreed that FCC shall partner with PCS as a mission and ministry training field, and

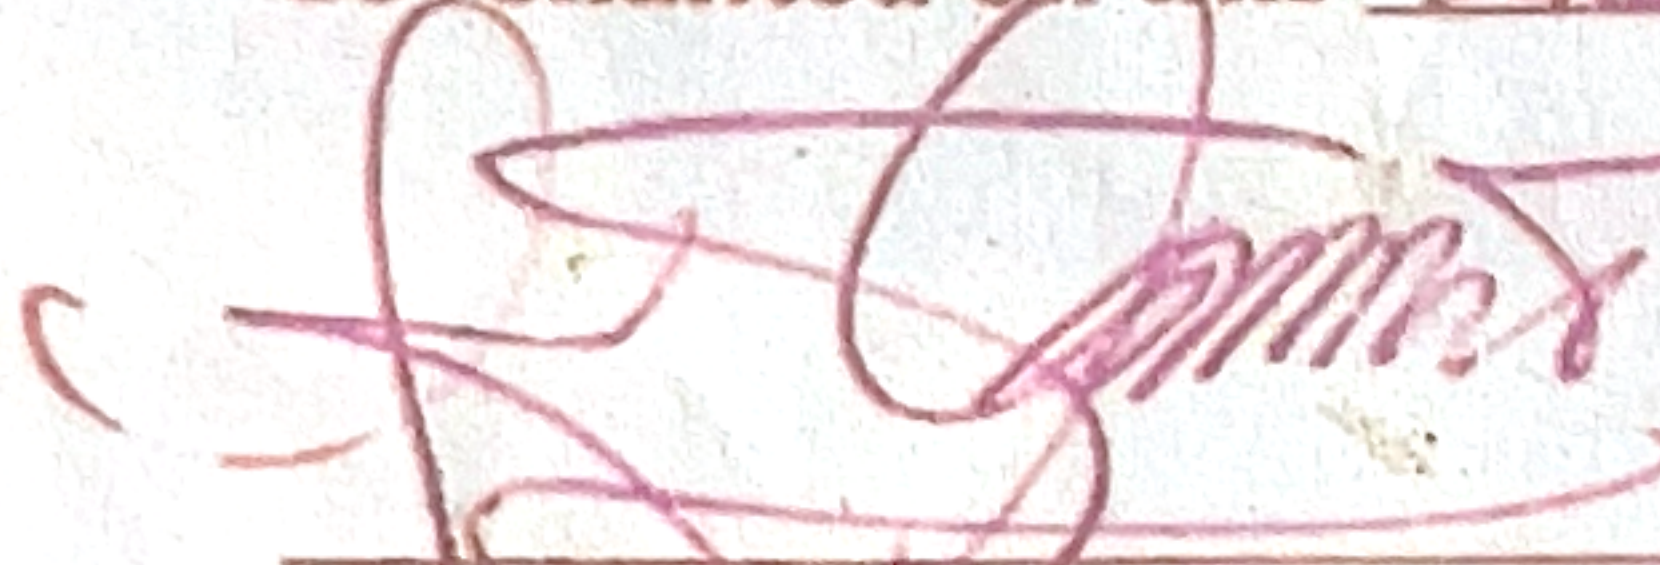

Whereas, we all agreed that PCS shall be governed by a school board, respectfully represented by the founding entities but it shall be autonomous in its operation, and

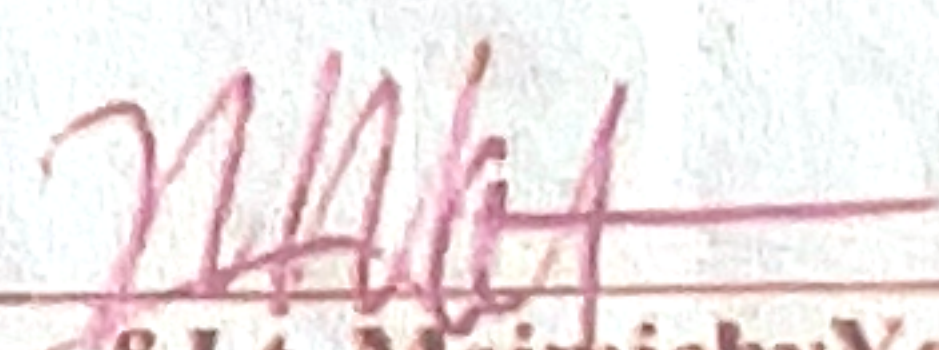

Whereas, we all agreed that we will share our resources, talents and skills, and maintain the integrity of our Christian institution and uphold the agreements, bylaws, and constitution of this institution, and

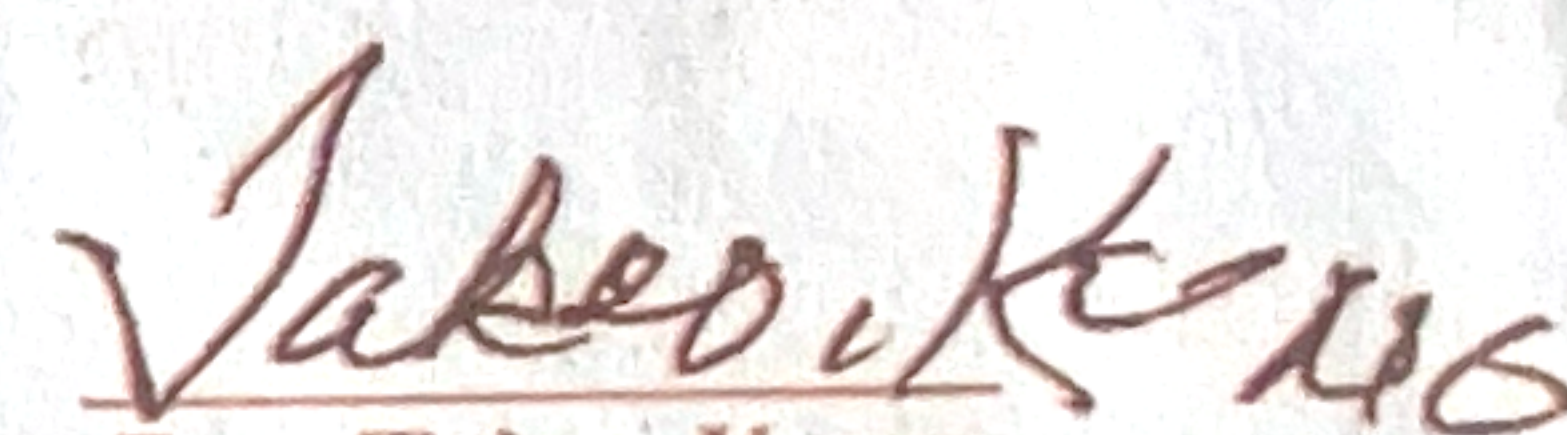

Therefore, be it resolved that we, the undersigned, will guard and protect our school against any destructive entity and policies be it government or otherwise, and in the case where one party is being dissolved, no changes shall be made by any one party without consulting the other existing parties, and

Be it further resolved, that on the day this document is being signed by all parties involved, it will automatically be binding, and so whatever God has joined together let not man separate, so help us God!

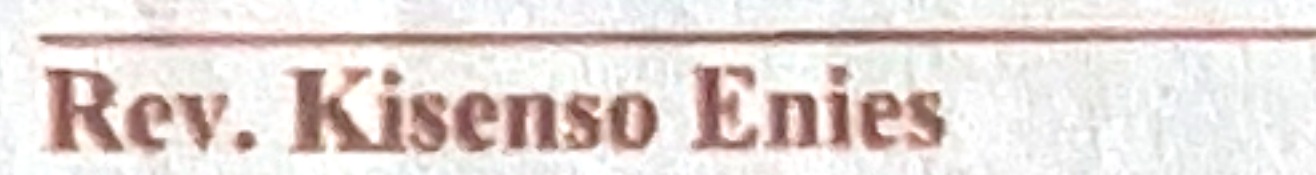

Covenanted on this 2nd day of JANUARY, 2019

Rev. Karsom K. Enlet, President
